WEBINAR

ADVANCED MANUFACTURING INDUSTRY FORUM:

UNDERSTANDING CURRENT AND FUTURE SKILLS THROUGH DATA ANALYTICS

Host: Las Positas College

ERIN BAIRD
Speaker

Lightcast

A global leader in labor market analytics

Friday, September 15, 2023
11 AM - NOON

Lightcast combines data from a combination of labor market information, job postings, local to global data, skills data, compensation data, and interprets to help educators and employers understand the supply and demand.

This webinar is designed to help Bay Area employers involved in advanced manufacturing understand current and future available skills.

Benefits to companies and colleges attending:

- Bay Area salary information for manufacturing skills
- Entry level education requirements
- Common cross sector skill needs
- DEI benchmarks in the Bay Area
- New sources for talent
- Age demographics
- Bay Area supply and demand
