

WE ARE HIRING!!!

Dragonfly Group is a hybrid real estate solutions company. We provide an integrated system of properties, technologies and services designed to improve the real estate experience for all.

We develop mixed-use, multi-family and single-family residences including accessory dwelling units (ADUs) for sale and for lease. Currently, we focus on infill development in the San Francisco Bay Area and have more than 40 operating and investment entities.

Dragonfly Group was founded in 2009 by technology entrepreneurs to bring an inventive spirit to real estate development. Our properties benefit from our steel modular building system (VERT), autonomous home technologies (ADOMI) and a full-service general contractor (SETT).

Field Operations at: Union City, Newark, Palo Alto, San Carlos, San Francisco
