Join a team of construction industry professionals passionate about
Improving Lives by Changing the Way the World Builds™!

Who you are

Motivated and enthusiastic about supporting the Fabrication team by maintaining various warehouse processes. You enjoy working in a team-oriented environment and always make safety a priority.

You have:

- Basic computer skills
- Safety awareness
- Communication proficiency
- Understanding of diversity
- Results driven
- Effective stress management/composure
- Team orientation
- Bilingual in English and Spanish is a plus!

Physical Demands

- Ability to lift, push, pull and/or carry heavy objects
- Regularly walk and stand for long periods of time
- Strong manual dexterity (hand, hand with arm, two hands) and multi-limb coordination
- Strong organizational skills

What we are looking for

A full-time Material Handler for Swing Shift (Monday – Thursday; 2:30 PM – 1:00 AM) for the steel fabrication shop in Hayward. This position is under the Fabrication Department and is responsible for the movement, protection, storage and control of materials throughout fabrication, warehousing, and distribution, as well as supporting other operations in the shop.

What you will be doing

As a Material Handler at ConXtech, you'll:

- Perform materials handling and storage
- Verify all materials/products meet requirements
- Load and unload trucks, and haul and hoist materials
- Prepare/deliver small parts packaging to fabricators
- Perform a variety of tasks involving strenuous manual labor in heavy machinery, equipment and material
- Assist management in recycling material in the warehouse
- Maintain a clean job site by picking up all tools and equipment and securing job site each day to eliminate potential hazards
- Safely utilize forklifts and power jacks to move warehouse materials according to proper safety instructions and as directed

- Assist in other job roles and functions to alleviate workloads in other departments
- Ensure that proper safety and incident reporting procedures are followed
- Previous material handling experience a plus

Work Environment

- Exposure to fumes or airborne particles, moving mechanical parts and vibration
- Occasional exposure to a variety of extreme temperature conditions due to weather (hot & cold)
- Exposure to loud noise level in the shop

Where you'll be working

You'll be based in our conveniently located Hayward, CA office and manufacturing facility.

Who we are

ConXtech is a construction technology company based in the San Francisco Bay Area. Our innovative structural steel building systems enable structures to be designed, fabricated and erected Faster, Better, Safer & Greener™ than any conventional alternative. The ConX System is the chassis inside over 10 million square feet of healthcare, data center, commercial, high density residential and industrial structures, and our R&D team works collaboratively to improve our products, systems and processes. ConXtech works at the leading edge of the construction industry, introducing manufacturing methods and new approaches to increase efficiency, quality and safety throughout the design-to-delivery process.

What we can offer you

Our employees are our biggest asset, and we want to make sure we continue to create a culture that is engaging, inspiring and rewarding to our team. We offer our team members a range of benefits, rewards, and health insurance options.

Our environment embraces those who are self-starters and go-getters. Is that you? Apply!

We are looking for local candidates only. U.S. Citizens and those authorized to work in the U.S. are encouraged to apply. We are unable to sponsor at this time.

ConXtech is an Equal Employment Opportunity (EEO) employer.
