Kreysler & Associates, an internationally recognized enterprise known for its innovation, creativity, and craftsmanship, is seeking skilled and highly motivated applicants to join our dynamic team and help advance our operation.

We are a well-established company that has been leading the way in the use of composite materials in art and construction since 1982. We have pioneered and adapted state-of-the-art technology to problem-solve in construction, art, and design. Our unique one-of-a-kind projects include large scale sculpture, architectural façades, and other innovative creations.

Most recently Kreysler & Associates has opened a new facility on Mare Island in Vallejo, California and is at the beginning of a new multi-year project with unique market opportunity.

Please consider joining our team and visit www.kreysler.com for more information.
