

K R E Y S L E R &
A S S O C I A T E S

Since our start in 1982, Kreysler & Associates has been pioneering state-of-the-art composite manufacturing operations. We have had the distinct opportunity to work with world renown artists, engineers, and architects in the design and construction of building facades, blockbuster movie sets, as well as the rehabilitation of historical US landmarks, and much more.

Recently, we opened a facility on Mare Island in Vallejo, California, as we are embarking on a new, incredibly unique multi-year project to help construct the **Lucas Museum of Narrative Art**.

We are currently looking for people in the following areas:

Quality Control
Engineering
Mold Prep
Lamination
Rigging
Gelcoat
Digital Fabrication
Dimensional Inspection

We hold tours of the facility every Tuesday & Thursday. If you have any questions or if you would like to join us on a tour please contact mayte@kreysler.com or call (707) 653-2091

All of our available positions are posted on Indeed.
