

INVENTORY OPERATIONS MANAGER

Do you want to change the world? Ample, Inc. is a pioneer in the electric vehicle space that is developing a new way to deliver energy to any electric vehicle. At Ample we use advanced robotics to enable fast modular battery swapping that is as fast, as cheap, and as convenient as gas. We are a team of technologists, designers and environmental enthusiasts who believe this problem to be among the most critical challenges of our time. Join Ample and help us make this a reality for billions of vehicles.

Our team solves complex challenges by combining creative technology design with fast iteration. You will be working with a small, intense and highly capable team on cars, robots and intelligent batteries. As the Warehouse and Inventory Manager you will be responsible for managing material movement across multiple warehouses and manufacturing locations as well as leading and growing the team that owns the full cycle inventory flow. You will coordinate with and support the manufacturing, deployment, and supply chain teams to enable Ample operations to scale quickly and efficiently.

What you'll do:

- Oversee and optimize the full cycle material handling flow: receiving, stocking, kitting, crating, and shipment loading (as needed)
- Innovate on inventory management processes and tools - identify inefficiencies, common mistakes, or risks and propose creative solutions that will scale
- Develop and manage a team to solve day to day operational issues, react to evolving priorities, and deliver on urgent requests as well as long term performance goals
- Foster strong team oriented, internal customer support culture, with proven ability to motivate and inspire
- Develop weekly and monthly work plans to align with production, deployment, delivery schedule but maintain agility to respond to ad-hoc requests
- Recommend policies and procedures to meet new or changing conditions. Interface with necessary stakeholders across the company to obtain alignment and implement corrective action measures.
- Oversee and participate in physical inventory counts and resolve discrepancies
- Maintain and improve existing facilities and equipment. Coordinate installations, construction upgrade projects, large scale material movement when needed

What you'll bring:

- Bachelor's Degree preferred
- **Proven experience managing teams across different levels of expertise**
- Determination to continuously improve processes and outcomes
- Ability to prioritize and multitask in a fast paced environment
- Meticulous attention to detail
- Ability to influence internal and external partners with a positive attitude

- Strong written and verbal communication skills
- **Ability to lift 50 pounds, pull, reach, climb, transport and handle products**
- Proficient in MSOffice/strong excel skills
- A valid driver's license and clean DMV record, forklift license a plus

We are an Equal Opportunity and E-verified Employer and promote cultural diversity.
