LIGHTING MANUFACTURER: METAL & GLASS FABRICATION

We are a small design-build manufacturer of high-end architectural lighting fixtures for residential & commercial clients, based in Berkeley, CA. Designed and built in studio, our fixtures are constructed in cast, forged & fabricated metals, turned and lacquered wood, blown and kiln-formed glass.

We are seeking an industrious, organized, and detail conscious individual to work on our small production team. Must demonstrate a high degree of initiative and be capable of following through on complex job tasks with excellent attention to detail. Good communication skills and a positive disposition are essential. Must be skilled in basic metal fabrication, glass kiln forming & cold work operations.

Responsibilities require experience in the following:

- * All areas of metal fabrication
- * Silver soldering & tig welding
- * Metal finishing, cleaning & cold patination
- * Kiln forming & cold working of glass
- * Assembly & wiring of fixtures
- * Familiarity with the safe use & maintenance of power tools
- * Maintaining a clean shop environment
- * Packaging & shipping

If you possess many of the above capabilities, have an eye for subtlety in fine details & finishes, and the ability to work closely & communicate openly with a small crew in an intimate & creative environment, we would like to talk to you.

This is a full time position with potential for growth and good job security. We are looking for a long-term commitment. We offer a competitive salary with benefits.

Please e-mail your cover page and your resume to info@mcewenlighting.com
