26102 Eden Landing Road, Suite 3 Hayward, CA 94545 (510) 887-8811 Fax (510) 887-8427

## **Mechanical Testing Laboratory Technician – Mechanical Testing Group**

Anamet Division of Acuren Inspection, Inc is seeking a full-time (40 hours per week) testing technician in the Mechanical Testing Group at the Hayward laboratory facility to perform the following job activities and areas of responsibilities:

- Perform a variety of ASTM, ANSI/ASME and AWS mechanical tests including tension, compression, 3-point bending, and Charpy impact on metal, plastic and composite test specimens. The laboratory tensile machines are computer-controlled with vendor-specific software. Training on the software will be on-the-job.
- Periodically interface directly with our customers in the laboratory while they observe/witness mechanical testing being performed.
- Assist the Testing Manager with incoming test sample logging, database entry and with customized or special mechanical testing projects, as needed.
- Maintain calibration checks and annual validations of laboratory equipment and instrumentation.
- Perform Rockwell, Brinell, and Vickers hardness testing.

This position is primarily a hands-on position for a motivated individual with the following skills:

- Mechanical aptitude with some formal training or on-the-job experience in a mechanical capacity
- Excellent computer skills and a working knowledge of MS Word, Excel & Outlook
- Use of basic shop hand tools and digital micrometers
- Basic arithmetic skills
- High aptitude, fast learner with a strong work ethic, creative and innovative mind, and a team player with the ability to multitask
- Minimum of a high school diploma; post-secondary education desirable but not required. A mechanical aptitude and a willingness to learn a technical skill is most important.

We offer a competitive starting salary dependent on qualifications, previous experience and match with the requirements listed above. Some overtime at 1.5X hourly rate may be periodically required when there is a high workload in the testing queue.

In addition to a competitive compensation, the company offers comprehensive benefits including medical, dental, vision, 401(k) and other insurance options, and paid time off (PTO).

Qualified interested candidates should submit a resume and cover letter to:
