SAVE THE DATE

Northern California HTEC Technology Manufacturing Conference *

“Advanced Manufacturing Technologies: Educating our Students to Meet Employer Needs”

October 25, 2014

Saturday, 9 am – 4 pm

De Anza College

Cupertino, CA

Register (no cost) at:

<http://tinyurl.com/NorCalHTEC2014>

Come hear about some of the new manufacturing technologies and advanced processes, and how they are being used to improve the competitiveness of U.S. manufacturing. Learn more about how the educational community is training its students to meet the needs of employers.

** The HTEC conference covers issues relevant to machine shop teachers (both high school & community college) as well as industry professionals in manufacturing.*

More Details and Agenda Coming Soon!
