Electric Motor Winder

Dahl-Beck Electric has provided Electric Motor and Pump Repairs to the San Francisco Bay Area for 80+ years. We are searching for an experienced Full-Time Electric Motor Winder. The ability to wind both AC and DC motors is necessary. We wind motors from 1 horsepower to 10,000 horsepower in voltages up to 4160 VAC and 1000 VDC.

The ideal candidate will be detail oriented with the ability to follow written and verbal instructions, have good communication skills, be able to work unsupervised and also work well with others. Candidate must also be willing to work overtime when asked. Pre-employment drug and alcohol testing will be performed before employment begins and random testing thereafter. Your hourly pay will be based on your direct experience as an Electric Motor Winder. Health benefits, dental, paid vacation and 401K provided by the company. We are located in North Richmond and your work hours will be M-F from 7:30AM to 4PM.

Please email your resume with experience to employment@dahlbeckelectric.com for immediate consideration. Telephone calls will not be accepted. We will contact you for an interview if you look like a promising candidate. This is not an entry level position, so please do not apply if you are not an experienced Electric Motor Winder.

Industrial/Marine Electricians

Immediate full-time employment openings for Industrial/Marine Electricians. Work involves new installations and repairs, troubleshooting and servicing industrial and marine electrical systems and wiring. Must be a responsible team player, a self-starter, able to follow directions and willing to work overtime when required. Applicants should be in good physical condition, able to work in an industrial/shipboard/shipyard environment. This position pays between \$30-\$45 per hour based on your skill level and direct related work experience. Valid CA driver's license w/clean record required, TWIC card a plus, or must be eligible to obtain a TWIC card. Pre-employment drug and alcohol testing required with random testing thereafter. Health benefits, dental, paid vacation, paid sick leave, paid holidays and 401K provided after successful completion of 90-day training period.

Responsibilities:

- Versatile in installation, troubleshooting and repair of Low Voltage and Medium Voltage Systems, including conduit and cabling systems.
- Install, troubleshoot, and calibrate control and power systems equipment and instrumentation.
- Plan, layout, and install of new wiring and equipment utilizing job specifications and local codes.
- Inspect power and control systems to identify hazards, problems and code deficiencies.
- Proper connection of single and three phase systems. Including motors, pumps, transformers and circuit breakers.
- Troubleshoot and test existing systems for faults and shorts.
- Use of all common test equipment, including ammeter, volt meter, ohm meter and megger.
- Understanding of motor controllers and control systems.
- Ability to read equipment manuals and technical drawings.

Please email your resume with experience to Dahl-Beck Electric at rbeck@dahlbeckelectric.com for immediate consideration. Telephone calls will NOT be accepted. We will contact qualified candidates for an interview. This is NOT an entry level position, so please do not apply if you do not have directly related experience.

Electric Motor Mechanics

Dahl-Beck Electric has provided Electric Motor Repairs to the San Francisco Bay Area for 80+ years. We are looking for qualified Full-Time Electric Motor Mechanics with the following experience:

1. 100 to 10,000 Horsepower (HP) random wound and form wound electric motor experience.
2. Disassembly and reassembly of Alternating Current (AC) and Direct Current (DC) electric motors.
3. 3-phase electric motors and medium voltage experience preferred.
4. Familiar with ball bearings, sleeve bearings and roller bearings.
5. Dynamic balancing of rotors, armatures, fans and pump impellers.
6. Perform no-load and full-load operational testing of electric motors.

The ideal candidate will be detail oriented with the ability to follow written and verbal instructions, have good communication skills, be able to work unsupervised and also work well with others. Candidate must also be willing to work overtime when asked. Pre-employment drug and alcohol testing will be performed before employment begins and random testing thereafter. Your hourly pay will be based on your direct experience working with electric motors. Health benefits, dental, paid vacation and 401K provided by the company. We are located in North Richmond and your work hours will be M-F from 7:30AM to 4PM.

Please email your resume with experience to employment@dahlbeckelectric.com for immediate consideration. Telephone calls will not be accepted. We will contact you for an interview if you look like a promising candidate. This is not an entry level position, so please do not apply if you are not an experienced Electric Motor Mechanic.
