bcarney@electro-coatings.com    phone # 510-849-4075 X212

### Company Description

Electro-Coatings of California is a diversified metal finishing company that was founded in 1943, providing it's customers with premier roller and finishing services throughout the United States.

### Manual Machinist (in school or graduated)

The job offers a learning and/or job opportunity for Laney College Machine Technology students in applying machinist and related skills in a production environment.

The job features on the job training at the Electro-Coatings of California facility through full time or part time work. The student will gain knowledge and experience in using and maintaining standard machine shop equipment and tools.

Working as a manual machinist under the direction of Journeyman level supervision, the student will assist in performing machining and mechanical work involving journal repair, grinding, polishing, inspection, and repair of specialized equipment.

The student will receive assignments based on his/her skills and abilities and will participate as a team member in all forms of everyday shop business.

*Student applicants must meet the following requirements:*

- Be at least 18 years of age
- Have completed at least 2 semesters with a minimum GPA of 2.5 in an accredited 4 semester college certificate program in Machine Technology
- Pass pre-employment background check
- Be able to perform physical work
- Be motivated and able to work independently as well as with team members

*The student applicant is expected to:*

- Learn and follow the requirements of the Electro-Coatings of California Safety Program
- Receive performance feedback and guidance from the supervisor or designee to work safely, effectively, and efficiently
- Report all problems with assignments to supervisor
- Maintain accurate documentation of labor hours
