Job Summary:

ERI is seeking a qualified candidate for an immediate full-time job opening for the position of Ceramics Green Machine/ Iso press Operator, located in San Leandro, CA. This position is reporting to the Manufacturing Manager, and will be responsible for accomplishing precision cylindrical and/or internal machining of green ceramic material on Vertical Turret Lathes.

Major Duties & Responsibilities:

- Set up, trouble shoot, and run manual and Iso press machinery including Bullard VTL and Saw.
- Ability to setup, adjust tool and fixtures using current released production drawings.
- Ability to do setups on manual machinery.
- Read and interpret work instructions and product drawings to determine dimensions and tolerances for setting the machining conditions for producing production parts.
- Follow work-order/router instructions and work within estimated time for completion of each assigned task.
- Use precision and specialized measuring equipment to check part dimensions.
- Moderate lifting, bending, pulling, pushing, up to 40 lbs. unassisted.
- Keep work area and machines cleaned and serviced regularly
- Perform other duties as assigned.

Skills & Requirements:

- 5 years minimum related experience in ceramic machine shops and “green machining” experience in moderate to high volume production environments.
- Manual machining/ grinding experience required.

energy recovery™

- Capabilities to inspect parts using micrometers, gauge pins, thread gauges, indicators, calipers and other specialized tools measuring as required.
- Ability to read and comprehend production Bill of Materials and production orders.
- Ability to use production drawings and instructions to accomplish assigned tasks.
- Must be a team player, professional, driven to first time accuracy and able to work under pressure without creating workplace disruptions.
- Must be reliable, self-motivated and possess strong verbal communication skills.
