

Upcoming Job Opportunity – September 2015

INSTRUMENT TECHNICIAN

Hourly Pay \$43.13 - \$45.35
Plus Excellent Benefits

Instrument Technicians perform a variety of skilled tasks involved in the installation, maintenance and repair activities for process instrumentation, recording instruments, analytical instruments, autodialer, communications and telemetering systems, control systems such as Emerson's Ovation Distributed Control Systems (DCS) equipment related to water, wastewater, lift/pump stations and reclaimed water facilities.

The most competitive candidates for this position will have:

- Experience with preventive maintenance, modification, calibration, programming, repairs and installation of all field instrument loop and control systems to enhance equipment reliability to meet wastewater treatment regulations.
- Experience with Allen-Bradley PLC5, SLC500, Control Logix, Siemens, Modicon, and GE Fanuc PLCs.
- Ability to provide technical programming support for repair and troubleshooting of network communications, and Emerson's Ovation DCS.
- International Society of Automation Certified Control Systems Specialist Level I or II certification

EAST BAY MUNICIPAL UTILITY

DISTRICT (EBMUD) is the west's largest independent water and wastewater utility, supplying water and providing wastewater treatment for parts of Alameda and Contra Costa counties. Headquartered in Oakland, our mission is to provide reliable, high-quality services for our customers, to exercise responsible stewardship over the natural resources with which we are entrusted, and to protect the environment for future generations.

and/or California Water Environment Association Level I (Level II certification is highly desired).

Hiring Process

Applicants who demonstrate the most competitive qualifications will be invited to a exam process. Typical exam processes include a written test and/or a hands-on performance test. Candidates who successfully pass the test are placed on a hiring list.

JOB REQUIREMENTS

- High school diploma or its equivalent and four (4) years of experience performing skilled work in electronic circuitry, electro-mechanical, pneumatic, and mechanical repair, at least two (2) years of which involved field work on instrumentation and process controls.
- Must possess physical characteristics to perform the critical and important duties of the class, including sufficient physical agility to work in high or confined spaces.
- Positions assigned to the Wastewater Department may be required to be clean shaven on a scheduled basis as required to wear respiratory protection equipment.
- Must be willing to work outdoors in a variety of weather conditions and work overtime as needed.
