

POSITION: ELECTRONICS REPAIR TECHNICIAN

OUR COMPANY

Surplus Service, located in Fremont, CA, is an e-waste management and liquidation company in the San Francisco Bay Area that specializes in a variety of electronic disposal services. We put an emphasis on reuse over recycling, a practice known as upcycling. As the UpcyclIT® leader, our goal is to provide eco-friendly solutions that lead to the reuse of electronics. Our electronic disposal services are a far more eco-friendly sustainable environmental option. We are an e-waste management company; we do more than just recycling. Please visit our [website](#) for more information.

DESCRIPTION

We are seeking a hands-on person who is technically proficient at repairing multiple types of equipment, hardware, software, devices and electronics. A true geeky interest in various types of equipment will help your success.

Prior experience as IT repair technician, final test technician, equipment configuration specialist, medical equipment repair, network / system administrator or other equipment repair roles are very helpful to the success at this opportunity.

REQUIREMENTS & RESPONSIBILITIES

- Check, sort, and triage incoming inventory for resale value and ensure that it meets with the company's selling criteria.
- Perform initial functional test on items and diagnose the equipment, if nonfunctional and needs repair.
- Make repairs as appropriate based on diagnostic evaluation.
- Take electronics apart and put back together with new or used parts.
- Load software, operating system, as required.
- Research how to repair and prepare items for sale to secondary market.
- Performs general cleaning of work area to ensure safety and discards all scrap material.
- Performs other related duties as assigned.

REQUIRED QUALIFICATIONS

- High School diploma or equivalent with some college education is preferred.
- Advanced familiarity with IT equipment such as PC, network equipment, server, switches, gaming consoles etc.
- Enthusiasm passion and desire to work with and fix electronics.
- A+ certified on Computer, Network and or Security repair preferred.
- Knowledge of electronics theory and equipment used in the repair of electronic components.
- Knowledge of circuit board soldering and repair techniques.
- Knowledge of process flows to include flow charts and written processes.
- Be able to define problems, and collect data to determine required repairs and methods
- Ability to follow direction, follow a high level of detail, multitask and work independently and with our team in a fast-paced environment.
- Proficient organization and communication skills.

COMPENSATION

Competitive base with bonus potential. There is also a profit sharing plan. This is a full-time career position with the opportunity to work for a growing well-established electronics surplus company.

Please send your resume with a cover letter detailing why you are a good fit to:
