

Production Assistant Needed

CNC Cutting / Die Cutting / Fabrication

About us:

- Small but growing production shop in West Oakland specializing in creative work as well as mass production
- Diverse client base in both the arts and industry
- Demanding but low stress work environment
- Equipment: three CO2 laser cutters, CNC router and knife cutter, two industrial die presses, adhesive laminator, basic woodworking, forklift
- See more at www.automatic-arts.com

What we need help with:

- CNC laser cutting (experience preferred)
- CNC woodworking and knife cutting (experience preferred)
- Die cutting (will train)
- File preparation (Illustrator / Autocad)
- Product assembly (requires manual dexterity)
- Material handling (occasionally lifting heavy rolls and sheets of material)

Qualities we are looking for (will train the right person):

- Interest in advanced cutting and fabrication techniques
- CNC file preparation experience
- Strong hands-on skills
- High energy / can-do attitude / eagerness to learn

Job description:

- Located in West Oakland near Emeryville border
- 20 hrs/week - could turn into a full time permanent position
- Pay dependent on experience
