

Introduction to the Skilled Trades Survey Course

Apply for the 5-week summer Course by May 15.

Apply now at: tinyurl.com/IntroToSkilledTrades

Are you interested in hands-on work? Skilled trade careers in the manufacturing, transportation, and water/wastewater sectors offer great benefits and opportunities for advancement. Learn more about these career opportunities in our 5-week (35 hours/week) summer program at Laney College in Oakland. Students completing this program will be prepared for entry level positions and continuation into community college skilled trades classes.

The full-time program provides:

- An overview of a wide range of skilled trades (outside of the construction industry)
- Instruction in math and spatial & mechanical reasoning
- Job search skills, cover letter and resume assistance
- Site tours of various industrial sites
- Introduction to job opportunities
- Job placement services & referrals to job openings in the Bay Area
- Referral to local community college skilled trades education programs

These sectors are interested in reaching groups that are underrepresented in their ranks. Women, BIPOC, veterans, and the justice- impacted are encouraged to apply.

Application Process

1. Fill out the online application at: tinyurl.com/IntroToSkilledTrades
2. Eligible applicants with complete applications will be invited to a phone and virtual panel interview.
